## Developer with experience in modern web technologies

Recent frontend developer graduate with backend understanding and hands-on experience in HTML, CSS, JavaScript, and React. Knowledge of Figma, UX principles, and accessibility (WCAG). Used to working in a structured and independent manner as well as in agile teams. Motivated by continuous learning and developing my technical skills in web development.

### Technical skills

- Intermediate HTML, CSS, JavaScript, React, Figma, UX
- Basic Git, REST API, WordPress, accessibility / WCAG, backend (C#, SQL)

### Experience

#### Frontend developer (LIA internship) - Nilo Collaborations

- Developed React components using HTML, CSS styled-components, and JavaScript
- Participated in sprint planning and bi-weekly meetings within an agile team

#### UX designer (Erasmus internship) - Extramus

- Identified and defined product requirements
- Created mockups for a mobile application in a design team

References available upon request

### Projects

#### UX-driven portfolio (personal project)

- Responsive, accessible, and scalable portfolio website built with HTML, CSS, and JavaScript, focused on readability, contrast, and clear visual hierarchy to guide users effectively

#### Reddit-inspired forum (course project)

- Simple React app with REST API integration and component-based architecture, built in a team.

### Education

Higher Vocational Diploma in frontend development / EC Utbildning / 2026

Magister's degree in user experience design / Jönköping University / 2022

Bachelor's degree in information architecture / University of Borås / 2021

### Additional experience

#### Personal assistant / Café assistant / Hotel cleaner

- Worked independently and in a structured way with a high level of responsibility
- Developed strong service, collaboration, and communication skills

### Languages

Swedish native • English fluent

### Strengths

Structured • Communicative • Team-oriented • Curious • Responsible • Solution-driven
